## Warped Cutter Deck Measurements

Part 1: Set mower at 4". On a flat level surface, measure the distance from the blade tip to the floor. Measure with blades front to back, then side to side. Do a measurement for each end of the blade. (A & B)

Dealer Name: \_\_\_\_\_ Model: \_\_\_\_\_ Serial: \_\_\_\_\_

Part 2: Measure the distance from the blade tip to the mower deck. Measure with blades front to back, then side to side. Do a measurement for each end of the blade.

Part 3: Measure the distance of the bottom edge of the deck shell to the floor.
